

Kapela VŽDY používá VLASTNÍ MONITOROVÝ MIX Soundcraft Ui24R. Všechny mikrofony musí být zapojeny do patchpanelu u tohoto mixu.

Kapela Vám přivede signály z vlastního splitteru pomocí vlastního multipárového kabelu s XLR konektory, přímo do Vašeho stageboxu.

NEPOTŘEBUJEME od Vás žádné phantomové napájení – ujistěte se prosím, že máte všechny phantomy VYPNUTÉ! Veškeré phantomové napájení je realizováno z kapelního monitorového mixu!!!

Multipair XLR cable (from IEM rack)
